Welcome to the 2014-2015 Researcher SourceBook®

Welcome to the 2014-2015 Researcher SourceBook®! Quirk's is proud to announce that the SourceBook is available as an app for your iPad, iPhone and Android devices – and we're the first and only industry directory to offer this. So not only is the Researcher SourceBook® the largest and most complete directory in the industry – listing nearly 7,000 research suppliers in 100 countries – but it's now available in the most formats. Besides the print edition and apps, the SourceBook is available online at Quirks.com; as a downloadable PDF; and on a USB flash drive (available by request, contact us at info@quirks.com).

The SourceBook is not just about quantity – it's designed to help you quickly and easily find a research provider that meets your needs. To that end, listings are organized geographically in separate U.S. and international sections. In addition, cross-reference categories are included to allow you to locate listings alphabetically; by research services offered; and by industry, markets and audiences served. The online SourceBook database is searchable by several parameters, including metro area, state, company personnel and research and industry specialty. The RFP feature enables you to request project bids directly from companies listed in the SourceBook.

Whether you're using the print, mobile app

or online version, Quirk's simplifies locating the right firm for your research project – which is why Quirk's is consistently rated as the top directory in the industry.

Along with the SourceBook, throughout the year we publish 11 regular issues packed with case study examples of successful research projects, research technique articles written by industry experts and the latest new product news and survey findings. If you haven't seen our publication, be sure to visit Quirks.com to subscribe. You can also sign up to receive our e-newsletter and the digital edition of the monthly magazine. And, when you add our lineup of research related blogs, there's no better way to stay abreast of the latest trends and techniques in the marketing research industry!

If you have any suggestions on how we can improve the Researcher SourceBook®, please contact me at steve@quirks.com.

YOU'LL HAVE TO DREAM UP SOMETHING ELSE
TO DO WITH YOUR TIME.

If devoting weeks to building PowerPoint presentations is your idea of productive time, don't read another word. However, if you'd rather spend those precious hours showing clients how much better you are than the competition, we're here to help make that happen.

Care to lose the drudgery?

Rosetta Studio automates the grunt work of compilation for ad hoc or tracking reports. Gone is the mind numbing toil of cutting and pasting files. Rosetta brings in data directly from your tabulation sources, double-quick and with 100% accuracy. The simple-to-master interface enables quick customization of tables and charts and even lets you standardize your customizations as Rosetta Studio templates for future use.

Saves time, money, mental health.

Rosetta Studio is the only software that automates both your ad hoc and tracking presentations. The simple-to-use but powerful features allow for automation of hundreds of reports. You can standardize the look and feel of reports across your company by sharing your customized templates. Your staff can design reports to individual taste or update existing ones with new data, leaving manual work unaffected. The time you save can amount to weeks. The money, well, you'd know better than us.

Minority is the New Majority.

This political season has proven what Opinion Access Corp. has known for years – the most influential groups of Americans are minorities who are growing in numbers and importance. Hispanics and African Americans are the new majority (just ask President Obama) and with the largest pool of Bilingual English/Spanish and African American interviewers both domestically and offshore, OAC can reach these groups, making us the most reliable resource for all your diversification data collection needs.

With our New York and Dominican Republic call centers, OAC can meet all your needs regardless of the size of the project or its time restraints. And, we SAVE YOU MONEY by lowering operating costs with our Dominican Republic facility. We offer the same high quality and expertise, with your day-to-day project coordinators, programmers and sales staff still based in our New York Office.

Minority is the new majority, and OAC has known this for years.

Earn your Master's in Marketing Research in just 20 months

Part-time MSMR designed to fit your professional life

Set yourself apart and advance your career with MSU's Master of Science in Marketing Research. Broad School at Michigan State University offers a part-time MSMR—with the same courses, faculty and rigorous academic standards as the full-time program.

- Hybrid online/on-campus program
- Weekly “live class time” online with your fellow students
- Total of three, one-week sessions on campus

“While considering MBA programs, I discovered the MSMR program and knew it was for me. After earning an undergraduate degree in Marketing and working for a leading CPG company, I was ready to advance my career with a MSMR degree from MSU. While building my technical marketing research skills, the program really developed my client and consultative skills. I am learning that the career possibilities are endless with the skills and knowledge gained from the MSMR program at MSU!”

— Jeff Pocklington, Class of 2011

You. Us. Together.
Making research awesome.

When you work with Decipher, you can think of us as part of your own team. We get to know you and your unique research goals. And we find the right data collection and reporting solutions to get you there—even if that means integrating third-party data sources and technologies into your project. We just want to make your life easier and your business more successful. However you celebrate your success is, uh, up to you.

Built in 2010, this 12,500-sq.-ft. premier taste test and focus group facility is designed with your comfort and research needs in mind. With three large focus suites, a 1,250-sq.-ft. commercial test kitchen, residential kitchen, CLT room that seats up to 50 with dividers and three separate waiting areas to prohibit respondent mingling, this facility is plush, accommodating, contemporary and affordable. An extensive database representative of Los Angeles County allows for bilingual, B2B, medical and a variety of consumer recruiting and accurate and thorough follow-up reduces the risk of no-shows and helps deliver qualified respondents. And if all this isn't enough, we have years of experience field managing a myriad of studies in other markets by partnering with like-minded facilities. Let us show you how seamless we can make your next project.

Experience insightful focus groups (both in-person and via Webcam) from a style I've developed over 20 years! With a Ph.D. in psychology, I uncover underlying motivational reactions and "get the 'real' stuff." Respondents and clients enjoy my high-energy sessions, creating involvement. Specialties: packaged goods, advertising, new concept development, positioning. Seniors are a strong specialty! Medical, general consumers, Web sites, banking, wireless, automotive, beverages, fast food, customer service and more. I've been the invited speaker at many qualitative conferences. QRCA and MRA member and PRC certified, presenting my unique approach to focus group moderating. With Webcam focus groups, respondents from numerous regions can participate at their own convenience and you "observe" at any time, offering comments that only the moderator can see. If interested, I'm happy to discuss this option with you. Benefit from our collaboration! Contact Gary Frieden.

ISA is one of the largest marketing research data collection companies in the U.S. with 325 CATI positions. ISA is known for superior service and as the industry leader in multicultural data collection, having conducted interviews in 67 languages. Online interviewing with our online sample solution, SoapBoxSample, leverages our proprietary panel with resources such as opt-in panel, routing techniques and live sample to offer access to millions of respondents. Through our Q-insights division we conduct face-to-face intercept interviews utilizing tablets and laptops, car clinics, qualitative studies and executive interviewing on a national scale. We have extensive experience in interviewing hard-to-reach ethnic groups such as Hispanic and Asian Americans. Q-insights has a focus group facility in the Los Angeles area and nationwide recruiting capabilities. ISA also specializes in customer satisfaction programs, utilizing multimode data collection including CATI, IVR and online and offers an online reporting tool (ORT) for interactive reporting capabilities throughout your organization.

If it doesn't communicate at layout, it never will. To some advertisers, a storyboard or layout is something that will have to be produced before its potential can be determined. However, for over three decades, we've proven that a commercial, print ad or any communication's ability to communicate can be determined before it's produced. Our unique, evidenced-based proprietary method can pinpoint strengths, weaknesses and areas where communication can be improved. The utilization of PhaseOne's analysis at layout stage has been validated to closely parallel communication test results of the same communication in produced form. And, companies using PhaseOne have eliminated time-consuming and costly production and testing of communication that was weak from the start.

Scientific Telephone Samples (STS) is a leading provider of quality sampling services for the marketing

research and academic communities. We offer a comprehensive array of sampling options including RDD landline, RDD wireless, Enhanced-Wireless™, listed/targeted, business-to-business, phone appends, and data enhancement. Our newest product, Enhanced-Wireless™, provides researchers with the powerful ability to directly target cellular/wireless individuals and wireless only households with superior levels of accuracy that reduce wireless data collection costs. Based upon a very large database of known wireless phones, along with the corresponding names and addresses, this new type of wireless sample is an industry first. Enhanced-Wireless™ samples are unique in that they can be targeted by demographics as well, such as age, gender, ethnicity, and income. Results in the field consistently outperform other wireless sampling methods and our clients are reaping the benefits. Enhanced-Wireless™ complements our other sampling services, such as RDD and listed samples, and when combined as a dual frame approach, we can create more efficient and representative samples. Furthermore, STS offers sophisticated techniques for sampling small geographic areas, such as ZIP codes, block groups, and other typically hard to define areas in both wireless and landline sampling frames. Since 1988, our commitment to quality, outstanding customer service, and the lowest prices continues to make STS the smart choice for accurate and productive sampling.

"Top Rated" in Impulse five consecutive years! It is all about quality recruiting. Flagship records each and every recruiting call. A full-time staff member listens to each recording as validation of the recruit; we then archive the recordings so that we can instantly access them. These recordings are available to you at any time, before and after your groups, and you are welcome to share them with your client. This can be

very helpful when clients are concerned about the qualifications of a respondent or when a respondent from a client list has complained about the recruiting call.

As a strategic market research consultant, TrendSource provides business intelligence, customer insight and compliance solutions to improve operational efficiency and enhance the customer experience. Our market research services and compliance solutions include: mystery shopping, pricing audits, customer intercepts/exit interviews, call programs, merchandising/marketing audits, voice of the customer (VOC) surveys, digital photo programs, age compliance programs, instant rewards and recognition, suggestive selling programs, employee engagement surveys, panel surveys and opinion polling, CMS marketing surveillance, health care mystery shopping, and on-site inspections. While we serve clients in any capacity they require, our expertise goes beyond simple data collection. Each TrendSource program is developed and executed using a systematic approach called QUEST, our proven project management method that ensures the right questions are being asked, the data collected is on target and findings are presented in easy-to-interpret summaries that identify economic benefit, ROI and recommended actions.

We help companies observe and listen to customers and leverage those insights into products, experiences and messages that are relevant and compelling. We conduct market research in a refreshing way - our team combines product and business expertise with research capabilities to get you in-depth, actionable results. We understand what you need to know and how you're going to use information to make decisions. We get what it takes to bring a product or service idea to life. We understand what you need to create messaging that is relevant. We help you engage with your customers in new and different ways, using interactive techniques to uncover what you don't know you don't know and generate innovative new ideas. We've worked in many different industries with both consumer and B2B products and services. We learn new technologies and business models quickly and hit the ground running. And, with several team members on each project, we are able to easily meet tight deadlines. We have years of experience working with clients around the world and have locations in San Francisco, Denver and Dallas. We engage with our global clients and their customers wherever they happen to be.

Engel Research Partners is a perspectives company. Every marketing challenge can be answered better when you address it from points of view beyond your own - from customers, vendors, partners, other departments, even the competition. Through focus groups, interviews, ethnographies and ideations we help you gain fresh perspectives. We listen, empathize and improvise, then analyze, synthesize and prioritize. Our ethos is guided by Marc's experience in standup and improv - arts based on understanding and using different perspectives. We make a difference in how you see yourself, generating insights that help you create more: breakthrough ideas, remarkable products, distinctive brands, compelling communications, attractive packaging, engaged customers, immersive shopping experiences and more.

Jared Schriber, Co-Founder/CEO

Founded in late 2011 and based in San Francisco, InfoScout makes brands better marketers by providing the industry's richest and most actionable source of household purchase information by item across all retailers. We are passionate about the opportunity to leverage mobile technology to capture purchase behavior in the offline world. Our mobile apps reward users to capture their receipts in a fun, rewarding, and engaging experience. Our patent-pending technologies then extract each shopper's item-level purchase data and associate it with specific products, brands, user surveys and other digital marketing signals. The result is an unparalleled capability for brands, retailers and their agencies to gain insights, target offers and reward loyalty like never before.

David Hattenbach, CEO

We are not your typical full-service research company. We are an insight, strategy and innovation company with a passion for food and restaurant marketing. As former marketing and advertising pros with a proven track record in the food and beverage and restaurant industries, we know what great, insightful research looks like. So we're able to execute the kind of research we know a client needs. We're creative innovators and strategic thinkers who know how to construct great research in the pursuit of great ideas. We started Secret Ingredient Marketing because we learned over the years that being big can be the enemy of great. Our clients tell us that big research houses are often data rich, but insight poor. Because we are creative-minded strategic thinkers first, we give our clients the kind of relevant insight and information that will drive their business forward. In fact, our work is 100 percent customized to our client's unique objectives and business culture. Whether it be qualitative or quantitative, global or local, we offer a full range of innovation, product marketing and brand communications research services that will elevate your brand to the next level.

Our founder named the company Corona because the word means light. It's the knowledge that surrounds and illuminates an issue which is exactly what we do. Our firm's mission is to provide accurate and unbiased information and counsel to decision makers. We provide market research, data analysis, and strategic consulting for organizations both small and large. While the volume of projects speaks to the demand for our work, the fact that two-thirds of our work is for repeat and referred customers says even more.

iModerate bridges the communication gap between companies and consumers through individual conversations, yielding context that drives smarter business decisions and increased customer loyalty, profitability and ROI. Through real conversations with real people we help clients get past data sets, establish customer intimacy and obtain true insight - the kind that informs why things are happening and what action to take. Our unique approach is based on online one-on-ones and a proprietary cognitive approach that allows us to understand consumers' inherent thought processes and how they make decisions. That framework coupled with 10 years of experience and over 100,000 conversations is what makes us experts in consumers and adept at uncovering what is truly relevant and why..

INGATHER is the industry's newest concept in focus group and sensory testing facilities. INGATHER is all about "Marketing Research In-Context". We go beyond fielding research in sterile office settings in order for you to get closer to your consumer. We provide comfortable, real-life, in-context settings allowing respondents to be open and honest, leading to deeper insight and truer results for better decision-making. With our new 10,800-sq.-ft. downtown Denver facility, the industry's first and only "Reality Research Restaurant", the "Reality House" and our "Entire Ethnography Experience" platform, INGATHER can facilitate your research in the ideal location. INGATHER is also more than just world-class facilities. Equally important is state-of-the-art and industry-first technologies and putting the best consumer in the right environment. We have a stellar "scouting" department - "We don't just recruit, we scout. There is a difference!"[®] Using psychographic profiling mixed with unique locating and contacting methods, INGATHER goes above and beyond to find ideal, fresh respondents. Book your project at INGATHER and see the difference that "Marketing Research In-Context"[®] can make!

Since 1990, Resolution Research has provided full service research and à la carte services to suit the needs of our clients including consultation, research design, programming, sample, data collection, recruitment, interviewing, focus groups, analysis, and reporting. Our experience and quality execution translate into some of the industry's longest-running customer relationships. Resolution is known by our ability to recruit the most-difficult targets on the planet. Why? Because we're savvy, smart, and determined - plus we have some serious experience and tools behind us. The Medical Panel focuses exclusively on professionals from the medical industry, including MDs/DCs/DOs, nurses, dental/eye care professionals, chiropractors, and more. Resolution panels target over 1 million active consumers and

specialty audiences profiled by over 50 data points. Custom, client-specific panels support ongoing communications and/or loyalty programs. We offer online partnerships to test concepts and products and to help drive traffic to your offer, survey, website, or community and provide the tools to manage and engage participants for short or long periods of time. MROCs, panels, advisory groups - by any label, communities cost effectively deliver on quick turnaround, deeper insights and decreased complexity. We didn't set out to be community experts; we just wanted to save the world from bad research and our innovations evolved into communities. Sure, communities sound soft and fuzzy - let's gather 'round the campfire and share our feelings - but the reality is communities are the turbo-charged, energy drink of market research. Our communities help keep our clients ahead of the curve in dynamic markets. TripleScoop is your community leader.

We are passionate about qualitative - it's our first love. And we have a deep appreciation for how qualitative research augments quantitative studies and competitive intelligence efforts. Hartt and Mind and its research partners offer a wide range of study designs for developing new products or services, testing concepts, supporting rapid innovation and developing marketing messages and logos that capture your market's attention. Our qualitative methods include online bulletin boards and focus groups, in-person focus groups and IDIs, telephone depth interviews, Webcam interrupts and ethnographies. We focus on the research that will bring the greatest positive change to your business and brand. As always, we are sensitive to our clients' budgets and work within them.

Touchstone Research, Inc. is one of the most experienced and advanced online research firms. We are known for innovation, leading-edge technical solutions and excellence in customer service and product delivery. Our belief is that marketing research must be as fast-moving, dynamic and ever changing as is today's consumer-centric tech-world: it is important to embrace new consumer technologies and include them as tools and methodologies so that we can reach people and communicate with them in new and more relevant ways leading to greater insights and understandings. We offer a full range of service from our MR service bureau (questionnaire development, programming, data processing, and qualitative recruiting) to full-service quantitative and qualitative custom and ad hoc studies. We have years of experience in building/managing custom proprietary online communities and panels as well as app/game testing and ethnographies. In ancient times, alchemists used a special stone - known as a touchstone - as a standard to grade the purities of precious metals such as gold and silver - Touchstone Research, Inc. sets the standard for excellence in marketing research and customer service.

OMR has two focus group facilities serving the Washington, D.C., market: downtown D.C. and suburban Maryland. Both locations have three-level viewing rooms with adjoining client lounges. Viewing rooms and lounges have multiple phone and DSL lines. The downtown location also has an executive one-on-one room with viewing. Both facilities have the highest-quality soundproofing and individual room climate controls. All recruiting is done in house, with daily reports and 100 percent validation on every study. Specializing in opinion leaders, public affairs, executives and consumers in all areas including various ethnic backgrounds, OMR recruits into facilities locally and nationally. In addition to qualitative studies, OMR handles most forms of data collection: telephone surveys, off-premise intercepts, audits, executive interviewing and mystery shopper studies. As part of FocusVision, OMR's clients can view their focus groups from any computer with Internet access. For quality customer service and impeccable recruiting, OMR is the ideal choice for your research needs.

Amber Tedesco, Director of Research/Training

Since 1981, RIVA Market Research (Research In Values and Attitudes) has grown to become the gold standard in the QLMR field. Our research division contains a staff of nationally-recognized moderators, researchers and analysts. As a company, RIVA is dedicated solely to qualitative market research. We conduct insightful research and translate findings into useful information that clients trust to help them make sound, strategic decisions. RIVA believes that moderating and interviewing skills are based on a science and executed as an art. To that end, we founded the RIVA Training Institute which enjoys an international reputation for its experiential curricula in fundamental and advanced qualitative market research and methodologies. Custom course are also offered - www.RIVAinc.com.

WBA Research is a full-service, custom market research firm which has been serving clients in a wide range of industries since 1987. From health care, financial services, education and transportation, to energy, associations and travel and tourism, we've helped hundreds of organizations uncover the insights and opportunities critical for their success. We are large enough to meet all of your qualitative and quantitative research needs, yet small enough to provide personalized service. We do not have standard solutions to any problems or issues brought to us - we work individually with each client to determine the research approach that will best meet your needs.

Datatelligence Online is an actively-managed, nationally-represented online community of over 400,000 active members. Unlike regular online panels, we recruit using standard online recruitment in addition to recruiting over half of the panel face-to-face. Unique to the panel is VideoSnaps, audience testing, community access panels, and full service IHUT capabilities. Not only will clients have access to panelists online, they can also have Datatelligence Online arrange for face-to-face and telephone interviews. In addition, we offer clients in-house shipping, handling, and procurement of products for IHUT testing. All data is validated by our patented Confidata system.

QualTopics is an online, text-based qualitative research tool that allows a moderator to chat live, one-on-one, with a respondent using a platform similar to an instant messenger service in order to gain deeper insight into opinions and perceptions. QualTopics provides high impact research to further uncover valuable consumer insights that can help guide your key strategic business decisions. No matter what phase of the research cycle you are in, QualTopics can help you gain valuable understanding and insight into your consumers' thoughts, attitudes, beliefs, and experiences that may have been left unarticulated through standard quantitative methods alone.

Human insights empower the growth of brands and businesses. We seek out the meaning and significance of consumers' experiences through qualitative research methods - ethnography, grounded theory, visual ethnography. We provide our clients with new ways of understanding the intersection of inner thought and the manifestation of behavior - the choices we make and the drive that compels action. Through a process of collaboration with our clients and partners, we deliver creative, strategic and actionable insights-based solutions to brand and business challenges.

New World Global Research mines cultural insights and looks beyond the obvious so clients can better understand consumers and ensure that their brands remain best in class and thrive in modern culture. We have a proven record empowering and connecting clients with the knowledge and tools necessary to explore and understand how consumers relate to products and brands. At New World Global Research, we discover and explore the collective ethos among consumers, rather than making them fit into a specific ethnic or cultural mold, we deliver cultural consumer insights in a rapidly changing world.

Rodney Kayton, Managing Partner

From our offices in Tampa and Miami, Study Hall provides insights and primary research-based knowledge to local, national and international clients. Our core team of research and insights consultants and strategists have 75+ years of experience in research, advertising and marketing - working with some of the biggest agencies and brands on Earth. As a result, we bring an incredibly seasoned and broad perspective to client engagements, as well as a strong measure of creativity in all our research solutions. Study Hall's ongoing success is based on two core strengths: 1) designing and deploying custom brand and communication research programs that result in deeper levels of client education about brands, products, consumers and the environments in which all three coexist; and 2) using that knowledge to develop brand, communications or business strategies that reflect the research learning. Through our home office and our affiliate partners, we work worldwide. At last count, we have conducted work in 39 U.S. states and 21 countries. Study Hall utilizes our proprietary QuickStudy® online survey tool to reach all types of audiences quickly and efficiently when quantitative methods are appropriate. Our core qualitative offerings consist of Study Groups®, Bacalaureate Groups® and Master Class®, each with distinct characteristics and unique applications but all offering powerful learning. So challenge us and let us show you our thinking. We will quickly become a true engagement partner (not just another vendor). Contact Study Hall to discuss your current needs, allow us to answer questions or to request a Best In Class® comprehensive proposal.

At Opinion Window we do one thing: deliver the most comprehensive open-end coding solution in the marketing/advertising research industry. Our coding philosophy is simple: Provide you with the richest amount of actionable information possible. We group

information into appropriate nets and sub-nets, so project leads can quickly access the level of detail they require. And we streamline the involvement of your tabulation programmers by arranging codes in logical, consecutive order and deliver in the format that works best for them. The result is crystal clear, actionable qualitative insight you can trust. With our combined project experience of over 50 years across diverse markets, our goal is to create a partnership that complements your research reputation with a deep understanding of the projects you undertake. We also consider speed the crucial counter-part of accuracy. Your deadlines are our deadlines, and we consistently deliver on-time or ahead-of-time, every time. Whether your coding project targets consumers, healthcare professionals or business-to-business, we are the premier choice of leading market research firms. We look forward to working with you!

SDR Consulting provides quality RDD, listed residential, cell phones, enhanced cell phones, voter files for all 50 states, business-to-business and specialty samples for all your research needs. Using GENESYS Sampling Software, we can generate RDD and listed residential samples defined by virtually any geographic or demographic criteria. SDR Consulting is a leader in fielding and managing online studies using the best online panels covering anywhere in the United States or most countries around the world. For 40 years, SDR Consulting has been the innovator and leader in providing crosstabulation services for our clients. We also offer services to clean RDD samples of nonproductive numbers and with determining whether cell phone numbers are active or not. Our compiled files help make low-incidence studies much more manageable and profitable. We offer sample management and study management services whenever it is needed by our clients for phone or online surveys.

Medical personnel are difficult to recruit. Unlike consumer research, it is more common to have to go off-list or increase incentives and still slots are not filled ... MedQuery takes a different approach and can deliver even the most challenging, high-quality medical respondents via a convenient location to the largest concentration of medical personnel in Chicago; an aggressive recruiting philosophy including in-person recruiting and e-mail panels; significant experience in pharmaceutical and medical market research.

Conjoint/Discrete Choice & MaxDiff Design, Programming & Analysis Services

We speak conjoint so you don't have to.

We give research companies a seamless, cost-effective way to offer conjoint analysis, discrete choice and MaxDiff services to their clients. We can:

- Design the conjoint, discrete choice or MaxDiff exercise
- Program and host the entire survey or just the exercise
- Estimate utilities or MaxDiff scores
- Perform preference-based segmentation or TURF analysis
- Build a conjoint or discrete choice simulation model
- Provide data analysis assistance

Perception Strategies specializes in health care perception research allowing providers to see through the eyes of the patient. Our services reveal, test and verify behaviors and processes contributing to patient perception. Our studies are crafted with our clients' involvement resulting in information that is more pertinent, customized, comprehensive and insightful. We have conducted 100,000 health care mystery shops over 15 years serving the health care industry. We originated emergency department process observation shops to create richer, less intrusive observer feedback.

Quester uses innovative research to understand people better and more deeply than ever before. Our technology helps us reach many people in many places very quickly. We create deep conversations planned by moderators and conducted by artificial intelligence. They're blasted out to big samples. And, they're seamlessly integrated within every survey, for every person. With over five million interviews conducted, we know how to get people to open up and to share more. Conversations are analyzed by trained researchers who examine nuances and hidden emotions in language that drive behavior. Our clients don't settle with either qualitative or quantitative research. They get the best of both. (See advertisement on p. 129)

At Horizon InFocus our single source project management model assures that clients will deal with only one person from bid preparation to project completion and billing. The HIF manager coordinates the team so the client does not have to worry about multiple "touch points." Whether you need 250 placements for a home usage test or 16 low-incidence focus group participants defined by a segmentation tool, our proactive project manager will get the job done using our robust consumer panel. Our premier research facility boasts two large focus group suites with private client lounges, T-1 Wi-Fi and full electronic support including FocusVision. Our new 1,500 square foot multipurpose creativity suite is perfect for consumer connects, briefings and ideation sessions. Top rated by Impulse Survey.

Location is key and that's why Suburban Focus Group is ideally situated right in the heart of the very best communities in the Boston metro area. With our convenient location we can provide you with far superior recruiting, higher-quality respondents and excellent show rates. Suburban Focus Group is a first-class research facility that offers everything you need to conduct extraordinary focus groups, IDIs, mock juries, usability and product tests. Our impressive facility is beautifully appointed and features state-of-the-art technology. Each of our temperature-controlled conference rooms is equipped with studio-quality A/V recording capability and built-in big-screen projection, which is ideal if you plan to show advertising, packaging or promotional concepts, prototypes, video, Web applications or other exhibits during your focus group. Both of our focus group suites include a large, flexible-use conference room, a deluxe viewing theater with tiered seating behind one-way glass and an elegant client lounge that has a closed-circuit monitor. We also offer smaller IDI rooms with recording and monitoring capability. We can flawlessly handle as much or as little of your project as you'd like - just let us know if you'd like expert discussion guide design and/or professional focus group moderation. Your project will cost less and you'll receive much more value for your research dollar at Suburban Focus Group. We promise the lowest prices in Boston - at least 20% less than other facilities. Plus, refreshments are included at no extra charge and parking is free. Choose Suburban Focus Group, the very best

focus group facility in New England. Be sure to take a look at the facility tour on www.suburbanfocusgroup.com. Then call or e-mail to reserve your dates and request a quote. We'll exceed your expectations - guaranteed! Suburban Focus Group is a division of DMCotter Research & Strategy Inc.

Center for Strategy Research, Inc. (CSR) is a full-service market research firm, actively serving a wide range of industries for over 30 years. We help our clients obtain better results and more reliable insights from their research efforts. In addition, we offer a unique qualitative-into-quantitative methodology that obtains a deeper understanding of why people think and act the way they do. This allows us to combine the richness of qualitative feedback with statistics resulting from quantitative data, producing insightful, actionable results. Experienced with both B-to-B and B-to-C audiences, we are especially effective at engaging high-value, hard-to-reach individuals such as senior corporate decision-makers, distributors, and affluent consumers.

Purchased provides consumer brands and retailers with shopper plans, behaviors and purchases where they happen, when they happen. Using real-time data capture via mobile for the same group of shoppers over time, we allow businesses to gain a complete and accurate picture of the purchase decisions consumers make, and why they make them. This information arms our consumers with the ability to understand, predict, plan and optimize shopper interactions with their brands and products.

All new in 2013, moderator-designed facility that provides you with a comfortable, effective work environment and leaves your clients feeling satisfied and impressed. An upscale, tastefully-decorated single suite dedicated to your project, with no interference from competing clients and respondents. Our bright, responsive staff is singularly dedicated to your needs. Focus group room features leather swivel seating, elevated chair rails and two-tiered lighting. New expanded viewing room and lounge provide space for your clients to stretch out, with widescreen LCD monitor in the lounge and beautiful views of our woods. Separate thermostats keep viewing areas and focus group room independently comfortable. Respondents can view video, computer and Web-based content via a 65" LCD TV, wirelessly controlled from the table via the moderator's laptop or an assistant in the viewing room. Take home 1080p video of your groups on a flash drive. An extra 10 minutes on the freeway from Metro Airport puts you in the heart of the ideal consumer and business base of northern Oakland County - including ultra-affluent Birmingham/Bloomfield, the upscale family areas of Troy/Royal Oak, the blue-collar workforce of Macomb County and the vast corporate and technical ranks who work along Automation Alley. We are within three miles of exclusive Somerset Collection mall and many fine restaurants. Major hotels are within two blocks of our facility, which is situated one block off I-75. No other metro Detroit facility can provide this outstanding combination of benefits.

Gongos' approach to decision intelligence offers Global 1000 companies multiple levels of engagement to address their ongoing business challenges. Its data integration practice, 02 integrated, harmonizes enterprise and research data through consultative relationships; and its newly launched insight curation practice, Arti®fact, is responsible for evangelizing knowledge brought about by primary and/or the synthesis of other types of data, to the broader organization. Serving the consumer products, retail, financial services, automotive and health care spaces, Gongos combines innovative and foundational approaches to primary research and market intelligence. The company thrives on developing techniques to shape purposeful stories that can be readily socialized within client organizations. Gongos' innovation strategy focuses on identifying and addressing industry paradigm shifts. As a leader in online research communities, Gongos continues to actualize their untapped potential through its newly designed platform. Gongos is also pioneering practices in modular mobile survey design and smart-phone-enabled ethnography through SmartFly™ and has tested the effect mobile engagement has on consumer authenticity. The company's primary research division, Gongos Research, partners with corporate research and insights teams on initiatives spanning the entire product and marketing life cycle. Focuses include concept and product development, voice of the customer, price/feature optimization, emotional connections, shopper immersion, positioning and segmentation. Its holistic approaches incorporate both qualitative and quantitative techniques.

Whether you are looking for qual online, onsite or infield, Ascendancy Research keeps growing in ratings, space and service! In the 2014 Impulse Survey Guide, Minneapolis rated us 92 and above - the highest rated overall in every category. Because of our rigorous growth these past five years we have moved into an all-new, expanded, A-rated space! We are now closer to the airport, four miles from downtown and next to the new West End, a unique venue with great restaurants, new hotels, new theaters and upscale shopping. Our custom environment facility can be adapted to your unique need or we will successfully recruit to your selected location. We offer three complete suites, including a super room for taste tests, mock juries and usability studies. Our focus rooms will accommodate custom-designed, intimate one-on-one settings to 40+ respondents in a theater setting. Your clients will enjoy roomy café seating, viewing rooms for 14+ attendees and state-of-the-art technologies along with delightful amenities. As always we offer free DVD and digital audiorecording along with 12 months of digital archiving of your project. Most importantly, our superior service and stunning facilities are second only to our recruiting. Our in-house recruiting is spearheaded by PRC-accredited management and a long-term professional interviewing staff. Quality monitoring and auditing is standard on each project! From your first call to us to our goodbye at the door, Ascendancy Research looks forward to exceeding your expectations!

FPI serves the CPG and food service industry with consumer research design and consulting services. We deliver intelligent research solutions integrating the three essential aspects of successful new products: concept benefits, plus product design and consumer wants. FPI's research services support product development from start to finish through: definition of idea drivers through early concept and prototype exploration; product optimization through sensory guidance research; creation of a competitive advantage through key attribute driver analytics; and validation of launch readiness through national confirmation testing. In addition, our state of the art facility provides configurable spaces for any design you can imagine including: large commercial kitchens, qualitative and quantitative suites and viewing rooms. FPI is committed to delivering a consumer centric product design approach that helps our client's launch products to new levels of success.

Go from creative chaos to strategic momentum. That's the result of partnering with Ideas To Go - where clients co-create concepts and solutions with the creative voice of their customers - and receive strategic and actionable results. Since 1979, our facilitators have become the experts in the fuzzy front end, developing the processes necessary to make risky, uncomfortable and unconventional possibilities possible for new products, positioning, promotions - and even undiscovered areas of opportunity. Our commitment to client success is what drives us - and our passion for innovation is why Fortune 500 companies, including one-third of the Fortune 100, come to us again and again.

Decision Insight is the shopper insights and retail strategy firm that uncovers shopper behaviors and motivations to develop effective strategies that win at retail. Three decades of consumer research experience have groomed the team at DI to actively anticipate the emerging needs of manufacturers, retailers and restaurant clients. At Decision Insight, we discover opportunities for our clients, create strategic solutions to best meet those needs, quantitatively validate winning solutions and help activate those solutions in the marketplace. Our expertise in technology-enabled methodology combined with best-in-class research professionals and strategic planners reliably transform consumer insights into successful retail solutions. Our approach is shopper centric and retail forward. We understand that the ultimate success measure of a research investment is the real world results achieved based on the recommended actions you take. Are you ready for results? DI is here to help.

Persuadable Research Corporation is a full-service marketing research company. We provide actionable research insights that give your brands a marketing advantage. We're known for our ability to deliver high-quality research while working with tight timelines and budgets. Our Solutions Experts Team includes Ph.D.-level researchers and provides high-level research consulting before, during and after the sale. They solve business challenges at a strategic level and provide tactical advice. We specialize in online surveys, online bulletin board focus groups, social media measurement and telephone surveys. We employ sophisticated technology to accomplish the most difficult research projects. Sample needs are quickly met and we have global, national, regional and local sample, plus B2B. We offer personal, responsive service, expert insights and research deliverables that are tops in the industry ... and at a competitive price that allows our clients to do more research within their budget. When people ask why we're different, we tell them that it's our ability to deliver results beyond expectations.

Emotive Analytics is a consumer research company that specializes in revealing the emotional dynamics of consumer and shopper behavior to help its clients develop emotionally engaging products, services, and their marketing. Research in neuroscience and psychology has shown that emotions and feelings are the primary drivers of humans, which includes consumer behavior. Emotive Analytics has special expertise in implicit (i.e., automatic, non-intentional, non-controllable, non-conscious and system one) techniques, including both quantitative (e.g., psychophysiological and implicit association) and qualitative (e.g., projectives, relaxed mind state and psychodrama interviewing). Emotive Analytics works with behavioral science experts in relevant fields, many at the Ph.D. level.

If they don't fit, even the highest-tech tools won't perform.

Case in point: CX systems. Too many bells and whistles and you waste money. Too few features and you trip over costly patches.

Maritz offers a better fit, mainly because we offer you a bigger toolkit. We have everything from the simplest reporting dashboard, to advanced EFM software powered by Allegiance. From our configurable Capella platform to fully custom global programs.

We also get to know you better. We start by digging deep into your company's goals and culture. Then we gather insights that let us recommend the system that's exactly as simple or complex as you need.

Visit maritzresearch.com or call (877) 4 MARITZ. Find a CX system that fits better —and runs better.

You can count on Peters Marketing Research (PMR) to offer the knowledge, skills and experience to not only meet your needs, but exceed your expectations. After more than a half century of service to the marketing research industry, no project is too challenging for us to handle; no detail too small to escape our meticulous attention and commitment to client service. Maybe that's why, for the 20th year, PMR was named an Impulse Guide Top Rated focus group facility - an achievement only nine other facilities in the world can claim. In addition to world-class qualitative research facilities and services, we offer a full range of quantitative services, proprietary software and technology, online surveys, in-home testing, on-site taste tests, and extensive business and consumer databases. Our full complement of services and expertise is rounded out by one of the most robust medical databases available anywhere. PMR is centrally located in St. Louis County, offering convenient hotel accommodations and easy access to St. Louis International Airport.

RealityCheck is a consulting group that uses cutting edge techniques and technology to humanize market research. We help you find insights that transform your business by engaging your consumers as real people and analyzing what they say in a way that inspires action and illuminates possibilities. Whether in-person or online, our research approaches break through barriers and gain deeper and more emotionally connected insights. To participants and clients our methods don't look or feel like research. Instead, we stimulate engaging, human conversations that produce meaningful insights. RealityCheck is a pioneer in the development and use of online

technology in qualitative research. And our in-person methods such as ethnography, psychological interviews and creative group-based techniques involve clients and engage respondents in ways they never imagined. Online, offline or combined, we specialize in providing innovative, customized qualitative research solutions to our clients.

StoryTelling

Everyone is talking about it - we are doing it!

Dapresy StoryTelling lets you clearly communicate business data through visually engaging, dynamic dashboards. InfoGraphic visuals work to engage your audience providing the information needed for clear decision-making. Easily deploy data across your entire enterprise to get the right data, to the right people, at the right time.

Dapresy allows multiple datasets to seamlessly cohabitate, easily combining surveys, sales, shipments, advertising and much more. Dapresy puts researchers in control, streamlines internal process through automatic updates and eliminates proofreading, saving time and money.

Dapresy Enfesys™ enterprise feedback system is our new Voice of the Customer 360° solution. With visually appealing, fast implementation, Dapresy Enfesys™ is the cost effective alternative to large EFM platforms for small to medium size companies.

No matter what your reporting needs, Dapresy gives you Better Data by Design.

Dapresy provides user friendly, graphical reporting dashboards. Easily create dashboards for everything; 360-degree programs, brand tracking, mystery shopping, voice of customer and ad-hoc projects. Dapresy is unique in its ability to work with respondent level data, which allows for "on the fly" online analytic processing direct from the Triple-S or SPSS file. We also make it simple to combine multiple datasets; survey, sales, shipments, advertising, transactions, etc. Dapresy uses a simple drag & drop interface so there is no programming required. Dashboards are quickly deployed to C-level managers, regional personnel, company analysts and researchers with full control so "the right person, sees the right data, at the right time". The building and maintaining of tedious, time consuming PowerPoint decks is ubiquitous to market research reporting. Dapresy makes building PowerPoint slides obsolete. Analysts' work directly from the raw data files and all dashboard pages are seamlessly built from these data. New data is automatically imported and dashboards refresh themselves for real-time access. No matter what your reporting needs, Dapresy Pro offers better data by design.

Edison Research conducts market research and exit polling, providing strategic information for businesses and media organizations worldwide. We are the leading provider of consumer polling, having conducted face-to-face research in almost every imaginable venue. Our trusted network of more than 16,000 experienced interviewers allows us to conduct research in almost any location. With an expertise in both quantitative and qualitative research, we work with many established corporations looking to keep their edge or expand, as well as young companies just starting to develop their businesses. We offer expertise in telephone, Internet and in-person research as well as focus groups and dial testing. We have been the sole provider of exit poll information to the six major news organizations - ABC, CBS, CNN, FOX, NBC and the Associated Press - since 2003, conducting exit polls and collecting precinct vote returns to project and analyze results. What do you need to know? No job is too big or too small - Edison Research can deliver the information you need. Are you a research firm looking to outsource a project? We can help with that, too. "Top rated" New York facility (Impulse 2014). New York Consumer Center offers the ultimate qualitative experience in the heart of Manhattan. We pride ourselves on surpassing expectations - from project execution to our spacious and trendsetting environments - living room, boardroom, creativity center, salon or classroom. Our five spacious suites are designed for flexibility - from a jumbo suite seating 65+, perfect for large studies or mock juries, to our intimate salon, ideal for smaller groups or IDIs. We offer the latest technologies - online bulletin boards and focus groups, videoconferencing, videostreaming and digital recording. Every room has separate climate controls for total comfort. Separate client and respondent entrances and fully-soundproofed suites

enhance project confidentiality. Fully-supervised in-house recruiting ensures that the respondents you want are the respondents you get. Our field division, MCC Global Field, handles all logistics from bids and holds to screener development, recruitment management to facility requirements and client updating. Our Hispanic Perspectives Division is the newest offering in our Multicultural Perspectives Group. Providing insights grounded in the Hispanic/Latino community, our team consists of bilingual moderators, project managers and recruiters who seamlessly execute assignments across cultures and languages. Also, when your research needs call for suburban N.J., visit our "top rated" Meadowlands Consumer Center in Secaucus, N.J.

Realizing that mega-store shelving, multi-media attendance, and small screen computers are now the new reality facing ad and packaging research, The PreTesting Group has introduced numerous, patented technologies for significantly improving predictive validity in today's new world. We disguise the purpose of our studies and use both in-store and life-sized personal testing of print ads and package designs, record commercial involvement (zapping) and second-by-second TV/Internet engagement. We have introduced in-store passive eye-movement recorders, real-world ad exposure tracking, passive saccadic eye movement recordings on smart phones and tablets and, globally, over a thousand low-cost, portable shopping recording devices with instant package recognition of test brands on shelf for recording of true shopper interaction with brands. All in all, we are re-inventing advertising research.

VS Research LLC delivers the reveal that delivers results. Category insights are important, but our research helps our brands shine with distinction. Here's our equation: honesty (deep respect for the consumer voice) plus ingenuity (refined investigation) equals 'ah ha' findings that drive future endeavors. Clients value our ability to discover truths that fuel results. To find their unique point of connectivity that shakes things up. Here's how we do it: We cast aside generalizations - they feed into the status-quo and oversimplify. Instead, we design our processes with specific intent: to inspire fresh thinking, deliver a wellspring of great findings and drive your business objectives. Our method: utilize exclusive and vetted techniques that unearth both the rational thought processes and emotional contexts that drive consumer-brand interactions. And a customized approach for each client, every time. We tap into the intangible in order to translate results into tangible action. Whether through: interplay that offers rapid-fire illumination of imprinted attitudes and behaviors; or our exclusive 'Slo-Mo' Bulletin Board program that cracks the code on automated behavior; visioning sessions that stimulate new ways of thinking and problem-solving; or qualitative and quantitative research that implores unique projective techniques, we access consumers' hearts and minds. Vivienne Segal and her dedicated team have been helping brands succeed for over 17 years. Through strategically-sound research that never stays the same, we surprise and inspire. We are widely known as experts in insight mining, brand equity/identity, strategy, advertising, packaging communication development, positioning and more.

The Ameritest system helps you see things others don't. Our diagnostic techniques create a visual vocabulary that show us how consumers process advertising. We also provide insights into the emotional components of your advertising that are essential in building long-term brand equity. Ameritest doesn't reward any particular formula for advertising, beyond that of success. This provides creatives with the freedom to produce truly innovative ads. We test thousands of ads for Global 1000 brands every year and our testing capabilities span all categories.

Advanced Focus is a full-service marketing research company that was built on relationships and innovation. Our state-of-the-art facility is centrally located in Midtown Manhattan; all of our four suites are designed to maximize the creative process and include embedded technology and highly-dedicated staff. In 2012 Advanced Focus The Loft was opened, the first non-traditional research venue that was designed with the researcher in mind. In addition to our regional recruiting services (all conducted and managed in house), we also recruit nationwide and offer field management services. This provides an opportunity for our clients to leave the management, coordination and recruitment of the multimarket studies to us.

Maybe... Market Research & Strategy was started with a ton of experience and a thought: market research could be done differently. We focus on all types of qualitative research, but our methods can be as creative as your ideas. We have a special love for creating unique approaches and combining online and in-person research methods to explore how people interact with products and brands in the real world. At Maybe... Market Research & Strategy, we are obsessed with how people think and we enjoy exploring the possibilities for brands to help take them to the next level.

Money4talk is a national recruiting firm with a local reach for our clients and participants. We also have a strong background in ethnic recruiting and are able to get a hold of respondents from certain ethnic backgrounds or ethnic based neighborhoods. Sometimes it takes more than just offering a person some extra cash for their opinion. We have learned how to establish a sense of trust and respect with many different ethnic backgrounds which may be unfamiliar with focus groups. Leave the heavy lifting to us...We can write your screener, provide a host and organize non-traditional venues in addition to recruiting the most qualified respondents.

"Top rated" New York facility (Impulse 2014). New York Consumer Center offers the ultimate qualitative experience in the heart of Manhattan. We pride ourselves on surpassing expectations - from project execution to our spacious and trendsetting environments - living room, boardroom, creativity center, salon or classroom. Our five spacious suites are designed for flexibility - from a jumbo suite seating 65+, perfect for large studies or mock juries, to our intimate salon, ideal for smaller groups or IDIs. We offer the latest technologies - online bulletin boards and focus groups, videoconferencing, videostreaming and digital recording. Every room has separate climate controls for total comfort. Separate client and respondent entrances and fully-soundproofed suites enhance project confidentiality. Fully-supervised in-house recruiting ensures that the respondents you want are the respondents you get. Our field division, MCC Global Field, handles all logistics from bids and holds to screener development, recruitment management to facility requirements and client updating. Our Hispanic Perspectives Division is the newest offering in our Multicultural Perspectives Group. Providing insights grounded in the Hispanic/Latino community, our team consists of bilingual moderators, project managers and recruiters who seamlessly execute assignments across cultures and languages. Also, when your research needs call for suburban N.J., visit our "top rated" Meadowlands Consumer Center in Secaucus, N.J.

Through Sample Source Auditors™, a division of Mktg Inc., we have created Sample Solutions™, which applies the science it has gleaned from seven years of studying online samples to assist clients in achieving a better sample frame. It all started with the Grand Mean Project® where we studied hundreds of panels around the world. We examine panels for consistency and certify panels for different levels of consistency and quality. With Sample Solutions™, each study is overseen by a sampling scientist with an advanced degree whose sole responsibility is to oversee quality and suggest and enforce best practices. Part of our standard protocol is to embed quality metrics and controls, which we call Q-Metrics™, into surveys we execute so that we can properly diagnose respondent engagement and minimize satisficing. We have chosen our strategic sampling partners by matching them to the grand mean standard to find the best behavioral fit on the market. Our standard practices for quality exceed those of any provider in the industry.

VeraQuest, a global provider of consumer and shopper insights, occupies the "white space" between omnibus research and custom research. That means we're able to exploit the cost, timing and sample advantages of omnibus research, while maintaining the benefits usually reserved for custom research. Take advantage of our simple, cost-effective per-question pricing scheme, while we provide: creative

approaches from our survey design experts, at no additional cost; 1,500 interviews, as standard - when 1,500 is not sufficient, we have a no-hassle way to augment sample with more general population or targeted respondents; advanced analytics, such as van Westendorp and TURF analyses, for clients who need more analytical "heft"; and a complimentary PowerPoint analysis with every project. Data is typically provided two to three days after field, with PowerPoint analyses two days later.

Think of it as Reality Research. At Video Chat Network, we learn how ordinary people behave in everyday life; in the kinds of situations they encounter every day. We get answers to the questions you care about by talking to consumers in their comfort zones. And by using virtual cameras, we can capture the moments as they happen in real time. Real Insights. Real People. Real Time.

AOC Marketing Research was ranked top three in the nation for recruiting and personnel according to Impulse Survey of Focus Facilities, 2014. Our specialty is recruiting and implementing large quota taste tests, central location tests, focus groups, in-

depth interviews, and other in-person research in our southeast facility. Expanded in 2014, all four of our rooms are within their own private suites. Each suite has a private lounge, office, restroom, an outside entrance/exit and separate HVAC zones for clients and participants. We have the latest in technology including 27 notebook computers, wireless internet with backup, digital audio, video and videostreaming with FocusVision and Streamline Universal. AOC is an owner operated facility in a one story secluded office park and a member of our management team is on site to supervise the implementation of every project. Our work environment encourages dedication and excellence and we take pride in delivering respondents who are exactly on spec.

Randolph N. Brooks, President

Established in 1988, Directions Research Inc. is a privately-held company headquartered in Cincinnati. DRI is a full-service research firm that provides custom-designed solutions tailored to meet client information needs with respect to timing, content, budget and strategic criteria. Types of work we do for clients include product and concept testing systems, conjoint, discrete choice, demand forecasting and modeling, price testing and optimization, brand strategy and tracking, awareness tracking, attitude and opinion, market segmentation and structure and customer value/customer satisfaction. With extensive experience handling research for packaged goods, restaurant, retail, financial services, technology and pharmaceutical companies, DRI executes studies globally among consumers, professionals, medical staff and other business-to-business respondents using a broad selection of data collection methods. Rather than invest in a data collection infrastructure, DRI partners with industry-leading data collection experts who provide high-quality data at competitive prices. This approach keeps DRI focused on creating the best research design for their clients, regardless of data collection methodology. Employing a team of experienced research professionals, DRI is able to meet the most demanding time schedules with polished,

presentation-ready conclusions and recommendations. And, with a deep bench of talented marketing scientists and research analysts, DRI provides unique insight and interpretation, not just data.

John Dickey, President

Quality Solutions Inc. provides market research and consulting services for companies seeking a competitive advantage. Rather than exclusively on the voice of the customer or the voice of the process, our services are designed to be complimentary and recognize the fact performance excellence is achieved through the successful blending of both. Our services are customized to your unique needs. We utilize a combination of tools and systems to assess customer loyalty. Our use of the Net Promoter System goes beyond the simple metric to ensure our clients understand the specific factors which create promoters and detractors. When you select Quality Solutions you will have the assurance of knowing you are working with Certified Net Promoter Consultants. Each company is at a different point in their customer-centric journey. It is not uncommon for a company to circle back to read the loyalty and engagement of their employees. Quality Solutions developed the Net Promoter Cultural Index as a means of assessing employee loyalty and engagement. We have a professional domestic call center and the ability to administer online surveys internationally with full translation support.

Come to Complete Research Connection (CRC) and experience the complete difference in qualitative market research. At CRC, we understand: we are your seasoned professional research partners. We have a fully-equipped facility in Columbus, Ohio designed with you in mind, in a representative market that is not over-researched. You can count on CRC for high-quality respondents and first-rate rooms. With a central location, only five miles from downtown Columbus and 12 miles from the Port Columbus International Airport, CRC has an expansive outreach for potential respondents. CRC can recruit from upper, middle and lower income neighborhoods, as well as business and residential respondents, enabling CRC to

successfully recruit even narrow study specifications. CRC also has a brand new modern facility with over 8,000 square feet and viewing room capacities for 30+ clients. The facility has five flexible room selections, offering traditional and living room set-ups. With two multi-purpose rooms (28'x32' and 28'x28'), two focus group suites (16'x22' and 15'x16') and an intimate, viewable IDI suite (8'x8'), you will find the perfect size room to fit your research needs.

OLC Global was founded by Peggy O'Connor and began operations in New York in 1985 under the name On-Line Communications. The name change is a response to the global economy and the company's outreach into the European market place. The company is seen as a proven leader in the market research data collection and inbound and outbound data collection complimented with IVR capabilities. We operate 230 fully-automated workstations. We utilize CfMC C-Survent software and Strata Soft dialers for our marketing research projects and our inbound and outbound teleservices. A thorough knowledge of end-user requirements and the uncompromising

training of our staff have fueled the growth of our company and created its impeccable reputation for integrity and responsiveness. Sustained growth is driving expansion and we expect to operate additional facilities in the future. As we go through a name change from On-Line Communications to OLC Global, we are making every attempt to let everyone in the industry know that we have not changed management and are still the same quality-focused company they have known since 1985.

A marketing research services provider, Decipher specializes in online survey programming, sampling, data collection and data reporting. Utilizing proprietary Web-based applications, Decipher integrates state-of-the-art technology with traditional research techniques. Decipher is all about uncovering opportunities in whatever territory is explored with clients. As a true partner, Decipher isn't interested in just data but also about what that data represents for each client. The company focuses on technology and research systems that bring data to life and in doing so, helps reveal how even seemingly small discoveries can yield meaningful insights.

MDC Research is a premier qualitative and quantitative market research firm. With 275 employees, MDC is large enough to provide the global reach, continuity of service and quality controls of a large international organization, but small enough to retain the responsiveness and agility of a small boutique shop. Though we handle the full-range of traditional and online methodologies, our specialties include complex multiple touch-point initiatives, C-level interviewing and recruiting, bi-lingual interviewing (Spanish/English) and proprietary panel seating and management. With a leadership team averaging 20+ years of research experience, we customize solutions to best address our clients' developing business situations. Headquartered in Portland, Oregon, MDC Research is also the parent company of VuPoint modular research services, which comprises four focus group locations in San Francisco, Dallas and Portland (2), as well as 200+ telephone interviewing and recruiting stations.

Since 1986, Portland's leading independent tab house, The Tab Lab, has been producing custom tables for market research companies. Using a variety of software (WinCross, UNCLE, SPSS, Excel), The Tab Lab emulates each company's style so presentations look as if they were all done in house. Besides data processing, tabulation and statistics we can also provide coding, data entry, interviewing and analysis. Our strength is in our communication and preparation. Our extensive experience in research data management ensures that your output is precisely what you need.

MRops provides end-to-end market research operation services to research agencies and management consulting firms across the globe. We build teams, technology and processes to support the execution of the most complex work, from targeting hard to reach audiences around the world, to validating who is actually completing our surveys, to developing respondent engagement solutions. Every step of the way, we add value by making recommendations and suggestions to improve the accuracy and quality of the research we conduct for our clients. Through our connected Executive Interviewing Centers we talk to the most challenging respondents globally, including high-level business executives across various industries and company size. MRops can also be your go-to resource for high-end statistical analysis. Whether you currently have no in-house resources or are simply looking to round out your team's analytical toolkit, we have the experience to guide you through the entire process: from selecting the appropriate technique to delivering results to delight your clients. By partnering with MRops, our clients spend more time analyzing the numbers instead of aggregating them.

 Paul Allen, Executive Vice President

Olson Research Group has been supporting the life sciences sector for nearly 2 decades by providing both qualitative and quantitative market research services and harnessing the latest technological offerings. What drives our deliverables is our proprietary database of HEALTHCARE PROFESSIONALS, PAYERS and PATIENTS who represent all corners of the healthcare space. The database is continually refreshed with new participants and thus differs from static panels that reach out to the same respondents repeatedly. The industry-experienced professionals housed in both our East Coast and West Coast offices proudly provide a full spectrum of services, from pure fieldwork/recruitment to the full execution of projects; from survey design to analytical outputs, using qualitative and quantitative research methods.

Panel Direct provides superior quality B2B, B2C, patients, caregivers and medical professional panels for all types of research since 2003. When effective and efficient targeting and robust responses are a key element of your research, Panel Direct's double-opt-in panel is the first choice for all U.S.-based studies. Collecting hundreds of data points, our highly-profiled specialty panels include HHDMs, BDMs, SBOs, influencers, ITDMs and more. Panel Direct is built through continual multimode recruitment sources, yielding highly-engaged respondents, facilitating both straightforward data collection methodologies and the atypical or experimental designs. Daily updates from dedicated project managers ensure seamless execution on every interaction and project.

Primary market research and analytics firm that pairs customized solutions with senior-level attention and the latest choice modeling approaches to help solve business problems. Success in marketing boils down to knowing how and why buyers make choices. Yet most market research studies fail to put these choices front and center. As a result they fail to capture what's truly important to the consumer. TRC believes that the best type of research asks people to make hard decisions to prioritize their needs and desires. We specialize in the tools and techniques (such as discrete-choice conjoint, product configurator or max-diff) for measuring these choices and use them to help clients develop new products and services, segment customers and prospects in a meaningful way or identify brand strengths and weaknesses.

Olson Zaltman Associates is a research and consulting firm that helps its clients understand and act upon the unconscious emotional needs and deep psychological motives of their customers. We use ZMET® - our patented research tool - to dig below the surface-level responses consumers provide in more traditional focus groups, surveys and depth interviews. Olson Zaltman Associates has helped many of the world's most-respected organizations uncover unmet market needs, position brands, launch products and evaluate current advertising and marketing messages. For more information on ZMET® and our other techniques for evaluating the unconscious mind of the market please visit www.olsonzaltman.com.

Global pharmaceutical market research firm Clarity Pharma Research specializes in pre- and post-launch anonymous, unidentified patient chart audit/treating physician studies. We size markets; measure patient and product share; track uptake, usage and market changes; enhance forecasting; explore practice patterns and treatment flow; differentiate brands from competitors; and fill gaps in secondary data. Clients generalize our scientifically valid, representative studies to the entire target universe (not just to panels) and findings have withstood scrutiny of medical journals and conferences.

You only have one chance to make the right first impression and that often starts with the name. But you also need a name that is easy to remember, that engages your prospects, that differentiates you from competitors and that drives sales for years to come without having to spend a fortune promoting it. How do you know which name is right for you? We can help by assessing each name's weaknesses, strengths and potential compared to norms across key metrics. With research roots dating back to the early 80's, we develop and test names for you that deliver (like Carmax, Power Shot and Puron.)

Hispanic research firm, founded in 1996, specializing in qualitative research and strategic planning: focus groups, triads, dyads, IDIs, ethnographies (in-homes and shop-alongs) and quanti-qual. Most projects are in the areas of positioning and concept development, advertising testing, A and U, new products, packaging and segmentation studies. Over the years, and at request of clients, we have evolved to include quantitative research and consulting. Moderator available in Spanish or English. Beatriz, a psychologist, and Guy, a seasoned marketing, advertising and research professional, each have 35+ years of experience working in the U.S., Mexico, Latin America and Spain. Combined areas of expertise and option of female or male moderator enable us to better uncover consumer insights and provide value-added, actionable recommendations. We guarantee the quality of our work because the partners personally execute each and every project from beginning to end.

Market research is about connecting the dots between strategy and tactics so you can make sound decisions informed by fact rather than assumptions. We help you connect the dots through focus groups, surveys and database/statistical analysis. Our clients have included small, medium and Fortune 500 companies in aviation, construction, industrial equipment, consumer packaged goods, health care, professional sports and other industries. Some of the most well-known brands in the marketplace have trusted us to help them find answers to their important questions.

With over 20 years of research expertise, with consumer and businesses, CCR conducts research for clients nationally, statewide, regionally and locally. Currently CCR has the largest Hispanic research department in the state of Texas with offices in Houston and Phoenix. CCR offers a variety of research methodologies to interview both acculturated and non-acculturated Hispanics/Latinos. CCR also offers researchers the opportunity to contact an array of Middle Eastern and Oriental consumers. CCR has large conference-style focus group rooms with one-way mirrors and large client viewing rooms for qualitative research. In addition CCR offers taste tests, telephone interviewing, executive surveys, mall intercepts, door-to-door interviewing, mystery shops, store audits and computer capabilities. Bilingual interviewing, moderators and translators are also available. CCR also offers project management for multi-city projects. Our extensive experience includes a wide range of industries: health care, financial services, consumer

products, retail, food and beverage, entertainment, communications, travel, etc. Our staff of more than 40 full-time market research professionals and 200 interviewers is ready and capable to service your every market research need. Blueocean Market Intelligence is a global analytics and insights provider that helps corporations realize a 360 degree view of their customers through data integration and a multi-disciplinary approach that enables sound, data-driven business decisions. Since we live in a highly dynamic and multi-dimensional world, we believe the most effective business decisions come from a synthesis of data streams and not from one-dimensional sources. Using our 360 Discovery approach, we ensure the comprehensive use of all available structured and unstructured data sources, enabling us to bring the best to bear against each engagement. Strong decision support is enabled through a combination of analytics, domain expertise, engineering and visualization skills brought together in harmony. Leading companies have benefited from our partnership with financial growth; 360 views of their markets and competition; and improved customer acquisition, satisfaction and retention.

Piece of mind

Most research is about finding key information that will improve sales, provide a competitive edge, or help refine a message or product.

That's why you call us.

We are the experts in helping you find that missing piece of information.

And that's truly peace of mind.

Since 1994, Information Solutions Group (ISG) has been helping businesses boost performance through customer insight. We identify who your customers are and what they need - and give you the tools to help you know how to invest your product development, marketing and customer service dollars. ISG offers an array of critical customer and marketing research solutions that enable management to make decisions in the areas of product development, marketing and customer service, based upon feedback from your most important asset - your customers. Our custom customer satisfaction and market intelligence surveys help you discover who your customers are and what they need so you can turn satisfied customers into loyal customer advocates. Through our years of experience, we are able to ask the right questions, obtain in-depth knowledge about your customers and target markets, leading to actionable results. ISG offers full-service global (multi-language) online and telephone research solutions within the Americas, EMEA and ANZ/APAC regions. Working closely with clients from start to finish, we offer customized end-to-end solutions that give you the insights you need to connect with your customers and serve them more effectively. We work effectively in partnership with executive management, marketing managers, product managers, public relations, as well as customer advocacy and customer experience managers.

SMP is a comprehensive, fully-featured survey system with all the bells and whistles you need to collect sophisticated survey research data. Use the system to create comprehensive marketing research surveys with multiple quotas, matched samples, screen outs, complex routing, sample monitoring, topline reports and compute functions or just use it for simple, fast data collection. SMP allows you to do unlimited real market research surveys at a fraction the cost of other comparable survey systems. And with CAPI Mobile interviewing built in (pro version only) you get two powerful systems in one.

Why frustrate your panelists with restrictive coupons and cards when you can send them real money? Market research companies rely on Chexx Inc.'s check-issuing and EFT services to send international ACH and local checks to their panelists around the globe. Protect your relationships: Send Chexx Inc. checks and EFT and start paying panelists in the way they expect to be paid. The largest brands in market research trust their payments to Chexx Inc. Call us today and learn why.

Ramius is an enterprise social software company. We've delivered innovative solutions to many of the world's leading companies since 1998. Our Recollective platform is a brandable solution for online qualitative research. Easily build online research studies incorporating structured activities, discussion forums and private messaging to gather insights from text, photo, video, image markups, polls and other response types within an online community. Study duration can range from one week to continuous and Recollective's adaptive design means it's optimized for use on any mobile, tablet or desktop device. For the researcher, Recollective offers browser-based verbatim excerpting and coding, a back room for private conversations, on-demand reporting and transcripts, segmentation and more.

It's not surprising that more than half of the top-10 food and beverage manufacturers and quick-serve restaurants rely on Contract Testing Inc. (CTI) for sensory, quantitative and qualitative consumer insights. CTI research protocols are rigorous and proven to deliver scientific, actionable information - intelligence that results in better products and propels brands into category leaders. From CLTs and HUTs to online research and focus groups, our standards and controls are augmented by critical analysis and guidance, ensuring that clear information is delivered with efficiency. Look to CTI for its own, fully-equipped field sites across the U.S. and Canada, with partner facilities worldwide. Proven protocols. Superior products. The world's best brands count on CTI. Our corporately-managed field sites across North America include Grand Rapids, Mich.; Detroit; Columbus, Ohio; Phoenix; Atlanta; Milford, Conn.; Houston; Toronto; Vancouver, B.C.; Calgary, A.B.; Montreal; and Halifax, N.S.

With the pace of change ever increasing, clients have new research questions that require new answers. DIG Insights believes that market research should: one, inspire bold new thinking; two, accurately predict choices, not just compare ideas against norms; and three, leverage the potential of new technology, embracing new opportunities for insight. Our methodologies reflect how decisions are made in the real world, incorporating context and trade-offs. Our team of senior researchers brings decades of practical experience, having worked on all sides of the table (supplier, client and end-user).

Our market researchers and consultants offer highly tactical market research and business consultancy services in China since 2002. We work with big brands to provide insight and action for their pressing business issues. DDMA is a tight team of both international and local researchers who have a hands-on approach to all our research projects. We are highly trained in international agency methodologies. Our clients trust our stringent data control, which is often hard to match in China. Our independent network is the biggest in China. We manage projects from our Shanghai headquarters, and conduct market research across China from an additional 20 research centers providing insights from all of China's major markets. Clients include Diageo, Anheuser-Busch and Transitions. (See advertisement on p. 275)

Our focus is moderation - one moderator, three languages (English, German and French) - and our passion is cross-cultural understanding, meeting international clients' needs in Europe and around the world. Elizabeth Lamberts has 15 years of experience moderating across Europe and designing and executing qualitative studies worldwide. With a passion for the "tough stuff," Elizabeth has an established track record moderating challenging topics in health care, B2B and technology (including new hardware formats, software and online services). We regularly moderate for agency clients who provide their own fieldwork and when requested, provide worldwide fieldwork services by working with trusted partners.

We are one of the very first German market research institutes specialized in online research and we are still independent. Regardless of what you are looking for, be it a needs assessment or the actual fieldwork - as a full-service institute we offer you all relevant services in online market research from a one-stop shop. With over 800,000 private consumers and just above 300,000 business decision makers in our proprietary panels you can explore even the most exotic

target groups. Take advantage of our global reach and contact your respondents in Europe, Africa and Latin America.

Dominic Carter, Representative Director & CEO

With offices in Tokyo, Osaka and Singapore, CarterJMRN is a full-service Japan based market research agency with a history leading back to 1989. A multicultural agency, we are known for the creativity of our responses to clients' briefs, applying research and industry related understanding and delivering highly practical, prescriptive and actionable solutions. We provide the gamut of research solutions necessary to become familiar with the Japanese market, including desk research, group discussions, depth interviews, ethnographic exercises or primary quantitative surveys. Our guiding principle is that genuine market insight most reliably occurs when information is married to context. Therefore, we aim to facilitate good decisions by helping our clients understand the results they see, placing them in the context of the trends in the market and the culture from which the results are drawn. The difference this sort of contextual consultation makes to the effectiveness of decisions is fundamental. Director level researchers, including our bilingual senior staff moderator, are personally involved throughout all stages of your project ensuring highest quality insights.

Kadence is an international research company with offices in the U.S., the UK, India, Singapore, Indonesia, Vietnam and China. Founded in 1992, with 300+ employees and a turnover of US\$30M, Kadence works with the world's largest brands, providing global coverage at a local level. Our researchers work with clients across a wide range of business markets to deliver insight and knowledge rather than just data. With our experience in key business markets, Kadence is an agency of choice for global management consultancies needing to conduct primary research. They value access to our leading-edge, web-based data capture systems (including CATI call centers in each location), centralized reporting, advanced analytics, ISO 9001 / ISO 20252 quality accredited processes and peace of mind.

QQFS is an international fieldwork agency dedicated to providing both quantitative and qualitative data-collection services across Europe, with a particular focus on the challenging markets such as the Nordics, Benelux, Austria and Switzerland. Our key executives have worked in international market research for over 20 years and have a vast experience of the global healthcare and B2B markets. As such, QQFS is keenly aware of cultural and national differences and can make recommendations on the most suitable methodology, target group and feasible sample sizes for your study. Our fieldwork team has considerable experience fielding both quantitative and qualitative multi-country studies and is dedicated to providing clients with the highest level of service and support.

Richard Collins

A marketing research services provider, Decrypt specializes in online survey programming, sampling, data collection and data reporting. Utilizing proprietary Web-based applications, Decrypt integrates state-of-the-art technology with traditional research techniques. Decrypt is all about uncovering opportunities in whatever territory is explored with clients. As a true partner, Decrypt isn't interested in just data but also about what that data represents for each client. The company focuses on technology and research systems that bring data to life and in doing so, helps reveal how even seemingly small discoveries can yield meaningful insights. Kadence is an international research company with offices in the U.S., the UK, India, Singapore, Indonesia, Vietnam and China. Founded in 1992, with 300+ employees and a turnover of US\$30M, Kadence works with the world's largest brands, providing global coverage at a local level. Our researchers work

with clients across a wide range of business markets to deliver insight and knowledge rather than just data. With our experience in key business markets, Kadence is an agency of choice for global management consultancies needing to conduct primary research. They value access to our leading-edge, web-based data capture systems (including CATI call centers in each location), centralized reporting, advanced analytics, ISO 9001 / ISO 20252 quality accredited processes and peace of mind.

Kadence is an international research company with offices in the U.S., the UK, India, Singapore, Indonesia, Vietnam and China. Founded in 1992, with 300+ employees and a turnover of US\$30M, Kadence works with the world's largest brands, providing global coverage at a local level. Our researchers work with clients across a wide range of business markets to deliver insight and knowledge rather than just data. With our experience in key business markets, Kadence is an agency of choice for global management consultancies needing to conduct primary research. They value access to our leading-edge, web-based data capture systems (including CATI call centers in each location), centralized reporting, advanced analytics, ISO 9001 / ISO 20252 quality accredited processes and peace of mind.

Good Enough Online Isn't Good Enough.

Our clients are raving about our online capabilities. They are even tweeting, posting and boasting about our online surveys! Cheaper and faster online surveys just isn't good enough for them, so we give them more...

Here's what our clients are saying about us:

"OAC is flexible, fast, reliable, creative, accurate and consistent."

– Honomichl Top 25 Company

"OAC has superior panel sizes, are trustworthy in bids, do not overpromise and have the ability to finish jobs at a much quicker and accurate rate."

– Pollster and Public Opinion Research

"OAC project managers are researchers who manage and run a research project, while sample houses that provide the same services have project managers that are mostly IT people, who don't know much about research, and therefore can't provide much insight and knowledge." – TV News Research Company

"Super reliable. Always deliver quality and on-time. Smart solution oriented. Improve the quality of my thinking and work. Great value. Quality sample. Very competitively priced."

– Radio Research Company

Why online surveys? Everyone wants data collection that's faster and cheaper, and let's face it, everyone is connected these days so it makes it easier for them to respond and for us to collect data.

Why online with OAC? We know how to manage the projects. We have quality programming, hosting and sample and we manage it all seamlessly. That's because we have 20+ years in telephone surveys that translates to experience, expertise, reliability and quality service. And, it's all cost effective. Introducing Enhanced-Wireless™

- A new type of wireless sample.
- Target wireless individuals, not just geographic areas.
- Better demographic representation.
- Reduced data collection costs.

The new **Enhanced-Wireless™** sample from Scientific Telephone Samples (STS) provides researchers with the powerful ability to directly target cellular/wireless individuals and wireless only households. Based upon a very large database of known wireless phones, along with the corresponding names and addresses, this new type of wireless sample is an industry first. Results in the field show high hit-rates on ZIP code, excellent sample efficiency, and significantly increased production rates. STS **Enhanced-Wireless™** samples are also unique in that they can be targeted by demographics as well -- such as age, gender, ethnicity, and income.

A recent study conducted by a client shows that the **Enhanced-Wireless™** sample “provided better demographic representation and a greater incidence of respondents aged 25 and under.” **Enhanced-Wireless™** also dramatically improved hit-rates for geographic areas such as ZIP codes or counties, as compared to RDD Wireless sampling. Our client reported that “the greater efficiency of the **Enhanced-Wireless™** sample requires fewer records to be purchased and lower interviewing labor to reach respondents” - resulting in a 20% to 30% cost savings.

These types of positive results continue to pour in. Contact STS at (800)944-4-ST5 to discuss how **Enhanced-Wireless™** can reduce your wireless data collection costs.

Adaptive Choice-Based Conjoint from Sawtooth Software

Introducing Sawtooth Software's most advanced system for conjoint/choice analysis: Adaptive Choice-Based Conjoint. Designed for studying complex product or service decisions, its new approach to preference modeling improves upon the best aspects of CBC and ACA.

- Directly incorporates non-compensatory decision-making
- Robust individual-level estimates
- Works for smallest of sample sizes
- Sound behavioral theory
- Solid statistical theory
- More engaging interviews

Put your foodservice research into some of the most experienced hands ... ours.

You may not know our name, but we bet you know our work. For more than 30 years, Restaurant Research Associates has partnered with some of the biggest names in foodservice. We know food research from every angle. And, it's not a part-time job - we live it, breathe it and even dream it, day in and day out.

365 days a year. Since 1979.
